Chai Cha Na Mining Focuses 100% on Yukon Gold Project and Drops Fox River Property

Chai Cha Na Mining Inc. (“CNN” or “Chai Cha Na” or the “Company”) wishes to announce the Company is now focused 100% on the Hartless Joe/Byng gold property located near Whitehorse, Yukon Territory, which was recently optioned from Strategic Metals (symbol TSX-V: SMD).

Due to the Company’s shift in its corporate exploration and growth strategy, Chai Cha Na, along with its option partner Revolution Technologies Inc. OTC (RVLTF) of Aurora, Ontario, have mutually decided to drop the Fox River Property in northern Manitoba and the mineral license on 108B has been terminated. Both parties had found difficulty in funding a geophysical program on the grass roots nickel property estimated to cost \$250,000.

“The Company is pleased to have secured an option on the Hartless Joe/Byng property in the Yukon Territory. The Yukon is known to be underexplored and has recently yielded significant new gold discoveries through 2009 and 2010. Chai Cha Na now has the opportunity to earn into this exciting gold project, and thus our team shift to focus 100% on this quality gold property. Our goal is to advance the project to a drill ready state and get the drill bit turning before the fall arrives,” commented Frederick Fisher, President and CEO of Chai Cha Na.

Forward-Looking Information:

This release may include certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical facts, that address future production, reserve or resource potential, exploration drilling, exploitation activities and events or developments that Chai Cha Na Mining (the "Company") expects to occur, are forward-looking statements. Such statements are identified in this release by the use of words such as "will" and "expected" as well as the use of the future or conditional tense. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward looking statements include market prices, exploitation and exploration successes, and continued availability of capital and financing and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.
